FOR IMMEDIATE RELEASE

Construction work begins at ChicagoWest Business Center

DEKALB, IL (September 2, 2019) – Krusinski Construction Company is pleased to announce that the firm has started the site development and mass grading at ChicagoWest Business Center in DeKalb, Illinois.

The Chicagoland industrial markets continue to demonstrate strong fundamentals, and interest for the DeKalb area confirms a positive time to move forward. With the resources the City of DeKalb provides, such as a strong labor market coupled with workforce partnership with Northern Illinois University and Kishwaukee Community College, there's good reason businesses are looking further west along the I-88 corridor. Other attractive benefits, include: The Enterprise Zone, 10-year Real Estate Tax Abatement, strong infrastructure, and the support of a pro-growth atmosphere that will attract a strong business community.

"I would like to thank the City of DeKalb, DeKalb County Economic Development Corporation, DeKalb Township Highway Department, Kishwaukee Water Reclamation District and other local agencies for the community-wide and pro-growth development support," Krusinski Construction Company CEO, Jerry Krusinski, said.

When completed, the ChicagoWest Business Center will attract hundreds of jobs offering a variety of employment opportunities and residual benefits for the DeKalb community.
