For Immediate Release:

Kish holding virtual registration events

Kishwaukee College is hosting virtual registration events June 24, July 16, July 28 and August 5 for students planning to attend Kish in the fall. The virtual registration events will begin at 9:00 am and be conducted through Zoom video conferencing.

The virtual registration event is for all new incoming students to assist with technology access, academic advising and registration for the fall. Sessions will include: setting up myKC; technology session and overview of student portal; paying for college; and academic advising. The event is scheduled to conclude at 11:00 am, with individual academic advising appointments between 1:00 pm—4:00 pm.

“The virtual registration events are designed to help new students prepare for the fall semester. As we continue to offer support services in the virtual environment, we want to be able to support our students throughout this time as best as we can,” says Graciela Horta, Kish’s student outreach coordinator. “Attend one of the virtual registration events to learn more about Kish technology and be set for success when the fall semester begins in August. We are here for you.”

To get the most out of the virtual registration events, students are encouraged to apply to Kish prior to event. To apply, visit www.kish.edu/apply. For more information and to register for the virtual registration event, visit www.kish.edu/regevent.
